

# HP ElitePad

## The true tablet for business

Go beyond everyday business with the HP ElitePad. Its elegant design and touch experience put productivity at your fingertips.

HP recommends Windows.

### Transform your workday with a tablet designed for business

The HP ElitePad is the true tablet for business, with a 10.1-inch diagonal screen and a complete suite of thoughtfully designed accessories,<sup>4</sup> giving you an elegant solution.

Windows 8<sup>1,7</sup> and x86 compatibility for legacy apps arm you with the tools you need—and the confidence of a familiar PC experience. All driven by the latest Intel<sup>®</sup> processors.

### Sleek. Elegant. Thoughtfully designed.

With a 16:10 display, you spend less time scrolling. More time doing. Thanks to support for touch, pen, or voice-based input, you can work the way that suits you best.

It's built to last and designed to look great and work dependably everywhere from the boardroom to the warehouse, thanks to durable materials like Corning<sup>®</sup> Gorilla<sup>®</sup> Glass 2 and machined aluminum.

### Deploy, manage, and secure like nobody's business

A familiar set up experience, plus available HP Custom Integration Services, make the HP ElitePad simple to deploy in existing IT environments.

Protection and Microsoft Defender<sup>9</sup> help keep you up and running with enhanced defense against virus attacks and other threats.

Keep sensitive data and devices in-house—and save both time and money. With an optional do-it-yourself maintenance tool,<sup>4,12</sup> updates are easy.

### Flexible customization options

Slide the HP ElitePad into a smart jacket<sup>4</sup> with an additional battery<sup>4</sup> to extend battery life<sup>20</sup> and work without worry about recharging. Dock at the office and the HP ElitePad becomes your desktop PC. The HP ElitePad Expansion Suite turns a true business tablet into a total business solution.

Whether it's sales, design, education or healthcare, you'll benefit from an assortment of industry-specific software and hardware options that have been thoroughly tested for compatibility.

Work on your terms with a tablet that fits your business.

HP Slim Bluetooth Keyboard<sup>4</sup>

HP Executive Tablet Pen<sup>4</sup>

HP ElitePad Docking Station<sup>4</sup>

HP ElitePad Expansion Jacket<sup>4</sup>

1. Not all features are available in all editions of Windows 8. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows 8 functionality. See [microsoft.com/](http://microsoft.com/).
2. Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.
3. For hard drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 30 GB for Windows 8 of system disk is reserved for the system recovery software.
4. Sold separately or purchased as an optional feature.
5. Wireless access point and Internet service is required and is not included. Availability of public wireless access points limited.
6. Memory operates at the maximum system supported speed of 533 MHz.
7. This system is Windows 8 certified and supports the new Windows UI. The integrated display resolution is below the threshold for Snap, a Windows UI feature that allows two Windows Store apps to be viewed simultaneously. This feature may be enabled by attaching an external 1366 x 768 or higher resolution display.
8. The mobile hotspot application requires an active internet connection and separately purchased data plan. While HP mobile hotspot is active, on-device applications will continue to work and will use the same data plan as the mobile hotspot. Mobile hotspot data usage may incur additional charges. Check your plan details. Requires Windows 8.
9. Opt-in and internet connection required for updates.
10. Service levels and response times for HP Care Packs may vary depending on your geographic location. Service starts on date of hardware purchase. Restrictions and limitations apply. For details, visit [hp.com/go/lookuptool](http://hp.com/go/lookuptool)
11. Planned to be available spring 2013.
12. Available for HP Authorized Service Providers or HP Self-Maintainers only.
13. Computrace agent is shipped turned off, and must be activated by customers when they purchase a subscription. Subscriptions can be purchased for terms ranging for multiple years. Service is limited, check with Absolute for availability outside the U.S.
14. Requires initial user setup.
15. Broadband use requires separately purchased service contract. Check with service provider for coverage and availability in your area.
16. Requires separately purchased GPS navigation software available from multiple GPS applications. GPS access requires an unobstructed path to multiple satellites. Performance may be affected if/when used inside of buildings, bridges or heavily congested metropolitan areas.
17. Requires Microsoft Windows and initial user set up.
18. Requires Internet Explorer, some websites and applications may not be supported.
19. Requires an Internet connection to HP web-enabled printer. Printer requires HP ePrint account registration. Mobile device requires Internet connection. May require wireless access point. Separately purchased data plans or usage fees may apply. Driver update may be required. For more details, visit [hp.com/go/eprintsoftware.com](http://hp.com/go/eprintsoftware.com).
20. Requires optional secondary battery and smart jacket.
