

Insight Cloud Management Platform

An easy-to-use, automated cloud monitoring, analytics and organizational tool to procure, provision and manage cloud solutions

1

Cloud platform

Manage your cloud offerings directly.

2

Service catalog

Simple provisioning through the self-service interface, integrated with the shopping cart, allows for easy selection and deployment.

3

Subscription management and recurring billing modules

Manage customer subscriptions with automated renewal and scale with demand in real time.

4

Billing flexibility

Monthly or annual billing accommodates consumption-based payments.

5

Level 1 24/7/365 support

Get U.S.-based technical support, plus end-customer billing.

6

Relationship management

You maintain the client relationships you have built, from servicing to billing.
