# Future-ready PCs that go where business leads

HP Business PCs are designed for mobile employees to work how they live

## Work is wherever life happens

Businesses are only as agile as their employees. Serious professionals want to work how they live—untethered, uncompromising, their world at their fingertips. And because their work often happens away from the office, people need on-the-go access to important information and critical applications right away.

At the same time, providing greater PC mobility and convenience for employees can put extra demands on your company's hardware and support resources. You need notebook and tablet PCs that are flexible and rugged enough to go wherever your business leads—without compromising security, increasing costs, or adding complexity for IT departments.

When your most demanding work is on the line, rely on HP to help you perform at your very best. We've designed our latest HP Business PCs to give mobile workers and nimble businesses the edge they need. No matter how you work, HP has you covered—with flexible and intuitive hardware, built-in security tools, comprehensive software solutions, straightforward manageability, and support you can count on.

## Equipping today's—and tomorrow's—highly mobile workforce

HP Business PCs are designed to meet the demands of leading businesses. Built from high-quality materials and backed by outstanding HP reliability, these stylish and sturdy devices are powerful, yet simple to use. With comprehensive solutions for end-to-end business needs, HP is a global leader in addressing key priorities and needs of mobile employees, busy IT staff, and budget-minded business managers alike.

### Smart mobile solutions to work where (and how) you want

Equip employees to do their best work, no matter where it happens. Create a more mobile, agile business with flexible hardware designed to work how professionals prefer. Choose an entire ecosystem of innovative accessories that help you get the most out of your investment. Don't force your employees to adapt their work styles to your technology—give them tools and solutions that fit their style and adapt to their needs.

HP Elite and Pro series PCs include lightweight tablets, 2-in-1 devices, and notebooks featuring high-performance Intel® and AMD processors and extended battery life to keep employees working at their best, for as long as they need. Ease collaboration with a wide array of connectivity options and anytime, anywhere access to critical information.

### Stout security built into every device

Stay one step ahead of hackers, thieves, and unauthorized users with built-in security and the HP Client Security<sup>1</sup> suite—safeguarding your data, employees' identities, and everyone's devices. HP's comprehensive set of security features help you repel an ever-evolving world of threats with multiple layers of protection to cover every entry point—from the BIOS and hard drive to your software. With simple solutions that are easy to deploy, manage, customize, and use, you can shield your mobile fleet against attacks and squash threats quickly.

Defend your PC with BIOS-level safeguards that can thwart malware and control everything from startup to login access to physical security. If your PCs are attacked, you can minimize downtime with HP BIOSphere<sup>2</sup>—the industry's first and only self-healing BIOS solution—and keep sensitive information out of harm's way with remote locking and wiping, self-encrypting hard drives, and secure data disposal tools.

### Torture tested for extreme reliability

Rely on technology that's been put through the ringer. HP's industry leadership and proven track record is built on exhaustive assessment, with HP Business PCs achieving up to a dozen U.S. Military Standard (MIL-STD) 810G reliability benchmarks<sup>3</sup> and 115,000 hours of testing.

You can trust HP's rugged, rock-solid designs to take a beating, no matter what your on-the-move employees throw at their devices. During testing, HP Elite Business PCs are dropped 26 times, driven on 1,000 vibration-filled simulated miles of US Highways, dust-blasted for six straight hours, issued 18 mechanical shocks, exposed to extreme temperature changes, and tested in high-altitude pressures.<sup>3</sup> All of this, so that when an employee rushing out the door knocks his PC against the kitchen counter, he can rest easy that his work is protected.

### New levels of productivity made simple

Achieve peak performance and productivity with HP Business PCs designed to work as hard as your employees. Enable users to access the business-critical information they need right away—and work without delay—using intuitive controls and the latest Intel and AMD processor technology.

Allow workers to keep projects moving on the fly, using a range of devices, solutions, services, and accessories that ease collaboration. Give mobile employees flexible ways to handle their work—from Android™ devices and Windows® 8 tablets and hybrids to Chromebooks, desktops, and notebook PCs. Stay comfortable and productive in the office by pairing HP Business PCs with innovative docking stations, adjustable displays, smart stands, keyboards, and mice.

### Easy manageability to take control of your business

Take care of your mobile fleet and master the steady flow of information to meet ever-changing business needs. Stay ahead of the curve with HP Proactive Change Notification, a free service that informs you of product changes before they occur to help you plan accordingly. HP SoftPaq Download Manager provides a simple, powerful way to update your HP client PC models. Locate and download SoftPaqs in as few as three steps from a single user interface after initial setup.

Get the help your IT team needs to stay on track and on budget, with customizable integration and deployment services for HP Business PCs. Make IT management simple with HP Touchpoint Manager—a single, cloud-based solution for managing data, security, and a wide array of third-party devices.<sup>4</sup> Set up devices faster, optimize their performance, and deploy updates across your organization with less effort.

**Valuable support—at your service**

Keep your PCs and software running smoothly, with fewer interruptions. HP service and support offerings include direct access to highly skilled technicians, around-the-clock phone assistance, and personalized account management.

With HP Personal Systems Managed Services, we manage your IT environment so you can stay ahead of technology demands, boost employee productivity, reduce costs, and free up valuable staff resources. Or choose targeted, customizable HP Services for PCs that span configuration, deployment, usage, and care. We'll work with you to get the most value out of your PC fleet and reduce system downtime—so your in-house IT experts have more time to focus on moving your business forward.

Explore the latest HP Business notebooks, tablets, and desktop PCs—featuring innovative designs and powerful technologies to meet all your enterprise needs. —>

## HP ElitePad 1000 Healthcare Tablet

Improve productivity and enhance patient interactions with a highly portable, antimicrobial Windows tablet—optimized for healthcare environments.<sup>5,6</sup>

- Use this durable, lightweight tablet throughout your clinical environment, thanks to an easy-to-clean design that meets IP54, MIL-STD 810G, and 3-foot drop (0.91 m) testing.<sup>3</sup>
- Help keep patient data confidential with an integrated smart card reader, HP security software, and hardware-based full disk encryption.
- Help reduce the risk of medical errors with 2D barcode validation (select configurations), and transcribe accurately with built in HP Noise Reduction Software.
- Create the best solution for your environment with a suite of optional accessories, including a tablet pen to enable data input on the go and a docking station for a convenient desktop experience.<sup>7</sup>

### HP ElitePad 1000 Healthcare Tablet

Screen size: 10.1 in diagonal  
Weight: 2.4 lb/1.89 kg  
Battery life: up to 12 hours<sup>8</sup>  
Storage: 128 GB  
Memory: 4 GB

### Smart devices help clinicians give patients more personal attention

**Challenge:** Medical personnel need more responsive devices that let them access secure, real-time patient data without getting in the way of quality care delivery. For example, rolling big carts back and forth between clinicians' stations and rooms is cumbersome, and can shift attention away from valuable one-on-one interactions between patient and provider.

**Solution:** The HP ElitePad 1000 Healthcare Tablet is designed to reflect the healthcare professionals who use it—tough, agile, and ready for anything. Clinicians can carry the ultra-portable tablet with them wherever they go, making it easier to collect accurate patient information. They can scan a patient's ID band at the point of care to help verify the correct medication dosage, plus quickly capture and share information—improving quality of care and freeing up staff to give patients more personal attention.

## HP ElitePad 1000 Rugged Tablet

Keep the pace in and out of the office with a secure, durable, Windows tablet designed to go where you go.

- Use this durable tablet wherever work leads you—it's designed to meet IP65, MIL-STD 810G, and 3-foot drop (0.91 m) testing.<sup>3</sup>
- Power through your shift with up to 20 hours of battery life<sup>8</sup> and a 2D barcode reader (select configurations).
- Make the solution part of your secure IT environment with full disk encryption, an integrated smart card reader, and HP software.
- Expand what you can do with a suite of optional accessories<sup>7</sup> such as a tablet pen to enable data input, a docking station and adapter<sup>10</sup> for a convenient desktop experience, and much more.

### HP ElitePad 1000 Rugged Tablet

Screen size: 10.1 in diagonal  
Weight: 3.2 lb/1.45 kg  
Battery life: up to 20 hours<sup>8</sup>  
Storage: 128 GB  
Memory: 4 GB

### HP ElitePad 1000 Tablet

Screen size: 10.1 in diagonal  
 Weight: 1.5 lb/0.68 kg  
 Battery life: up to 13 hours<sup>8</sup>  
 Storage: 128 GB  
 Memory: 4 GB

## HP ElitePad 1000 Tablet

Get more than a tablet—get a total business solution. Redefine productivity and stay light with the confidence of leading manageability, security, and support solutions.

- Carry high-quality design wherever you go—the HP ElitePad 1000 Tablet is one of the thinnest and lightest tablets in the industry, but it's built to last.
- Take the next step in productivity—a 64-bit Intel processor provides all you need to stay productive in the office or on the go.
- Easily incorporate the tablet into your IT environment, and simplify your workload with optional solutions from HP, LANDesk, and Microsoft.
- Stay up and running with HP BIOS Protection<sup>2</sup>—offering enhanced protection against virus attacks to the BIOS and other security threats.
- Expand what you can do with a suite of HP ElitePad accessories,<sup>7</sup> and turn a true business tablet into a total business solution.

### HP Pro Tablet 608 G1

Screen size: 7.9 in diagonal  
 Weight: 0.79 lb/0.36 kg  
 Storage: 128 GB  
 Memory: 4 GB

## HP Pro Tablet 608 G1

Transform your business with this small stylish business tablet equipped with a brilliant, high definition display and the pervasive connectivity to mobilize nearly any business process.

- Get a clear view of your work on this Windows 8.1<sup>5</sup> tablet with a 2048 x 1536 QXGA HD display in 4:3 aspect ratio.
- Tailor your experience to the needs of your business with a keyboard, cases, portable docking station and more<sup>7</sup> to customize your tablet.
- Virtually eliminate road, airport or other background noise with noise-canceling software that delivers superb on-the-go conference calling.
- Keep up with tasks in and out of the office with the Intel® Atom™ quad-core processor<sup>9</sup> with 64-bit OS support and expanded memory.
- Get business-class security and manageability options on the HP Pro Tablet 608 with HP Client Security,<sup>1</sup> HP Touchpoint Manager<sup>4</sup> and more.

### HP Pro Slate 12

Screen size: 12.3 in diagonal  
Weight: 1.9 lb/0.9 kg  
Battery life: up to 10 hours<sup>8</sup>

### HP Pro Slate 8

Screen size: 7.86 in diagonal  
Weight: 0.8 lb/0.4 kg  
Battery life: up to 10 hours<sup>8</sup>

### HP Pro Tablet 408

Screen size: 8 in diagonal  
Weight: 0.8 lb/0.4 kg  
Battery life: up to 8 hours<sup>8</sup>

## HP Pro Slate 12 and HP Pro Slate 8

Work seamlessly in and out of the office, using an Android tablet with hardware-enabled security, a Qualcomm Snapdragon 800 series processor, and an integrated HP Duet Pen.

- Safeguard data with comprehensive management and security software.
- Instantly digitize handwritten notes with the HP Duet Pen,<sup>11</sup> along with integrated and downloadable productivity apps.
- Be more efficient with lightning-quick app responsiveness, screaming-fast graphics, advanced multimedia support, and long battery life.
- Get to work fast with the latest 802.11 Wi-Fi protocols,<sup>12</sup> Bluetooth®, Wi-Fi Direct support,<sup>13</sup> and an optional high-performance WWAN LTE module.<sup>14</sup>
- Run meetings without wires by securely sharing your screen over Miracast.<sup>15</sup>

## HP Pro Tablet 408

Stay connected away from your PC with this thin and light business tablet. Keep productivity high with quick, reliable access to applications and a portfolio of optional mobile accessories.

- Move business forward with an affordable, ultra-mobile, 8-inch business tablet that endures 115,000 hours of rigorous HP durability testing.
- Help secure your data and devices with business-class, TPM-based data encryption, and manage it all with HP Touchpoint Manager.<sup>4</sup>
- Get the job done by connecting and creating with a bright HD touch display and full Windows 8.1 Pro experience<sup>5</sup>—powered by an Intel Atom™ Quad Core processor,<sup>9</sup> long battery life, and 2 GB of memory.
- Help maximize mobile productivity with an expansive portfolio of accessories, software, and services from HP.

**HP Elite x2 1011**

Screen size: 11.6 in diagonal  
 Tablet weight: 1.71 lb/0.78 kg  
 Tablet with Power Keyboard weight: 3.4 lb/1.54 kg  
 Tablet Battery life: up to 9 hrs.  
 Tablet with Power Keyboard battery life: up to 14 hours

**Stay in charge of your workspace, no matter where you set up shop**

**Challenge:** Traveling executives need to stay plugged in and ready to handle critical work, no matter where business takes them. Trips abroad often involve unpredictable work settings—putting a premium on technology that’s comfortable and adaptable. And when they’re back in the office, they need their technology to integrate into their permanent workspace, so they can stay on top of tasks before heading back on the road.

**Solution:** Link the HP Elite x2 1011 tablet with a pair of smart keyboards that make work easier in the office, on the go, and everywhere in between. An executive can extend his or her day with a soft travel keyboard that’s lightweight and ready to make work more comfortable, whether he sets up an impromptu workspace in an airport lounge, on the plane, or in the cab. And once the deal is sealed and the executive returns to the office, the versatile power keyboard allows for convenient, wireless docking. Plus, the optional fingerprint reader and smart card reader bolster security.

**HP Elite x2 1011**

Work with confidence on the road, using a lightweight, 2-in-1 tablet packed with security features and an impressive ecosystem of accessories.

- Count on the strength and stability of a premium user experience with a sleek, all-metal design and sturdy reflexive hinge.
- Power up your productivity with Windows 8.1,<sup>5</sup> next-generation Intel Core™ M processors,<sup>9</sup> and up to 16.5 hours of battery life.<sup>8</sup>
- Safeguard sensitive information, identities, and your HP Elite x2 tablet with the HP Client Security portfolio.<sup>1</sup>
- Boost efficiency and adapt to your work with optional wireless docking and a lightweight travel keyboard.<sup>7</sup>
- Collaborate from practically anywhere and conduct virtual meetings with dual cameras, HP Noise Reduction Software, Qualcomm® GOBI™ 3G/4G LTE WWAN,<sup>16</sup> and HP Mobile Connect.<sup>17</sup>

**Featured accessory: HP Advanced Wireless Docking Station**

Move seamlessly—and securely—from mobile freedom to desktop productivity. The elegant HP Advanced Wireless Docking Station uses wireless gigabit technology and provides DisplayPort, VGA, RJ45, Ethernet, audio, and USB ports for fast connectivity with no cables or clutter—all in a cubic design. Easily expand your display, network, and device options to customize an always-ready workspace.

**Featured accessory: Wacom Pen**

Bolster your creativity with the battery-free, high-performance HP Pro x2 612 Wacom Pen.<sup>18</sup> Precisely write and draw creative graphic content—with 1,024 levels of pressure sensitivity, and palm-rejection technology to prevent accidental input, it’s no ordinary pen.

## HP Pro x2 612

Stay productive in the office or while traveling with an expandable tablet equipped for business performance.

- Impress your team with the sleek and functional design of a 2-in-1 device built for content creation.
- Purchase a full 2-in-1 notebook or build it up over time with a tablet that works with optional keyboards<sup>7</sup> to meet travel needs.
- Perform at your best with a 2-in-1 equipped with the optional Intel Core™ i3/i5, Pentium™ and Celeron™ processors,<sup>9</sup> and fast SSDs.
- Help keep security issues at bay with built-in security features—smart card reader, optional fingerprint reader,<sup>7</sup> HP Sure Start,<sup>2</sup> HP BIOSphere,<sup>2</sup> and HP Client Security<sup>1</sup>—to keep your data and device safe.

### HP Pro x2 612

Screen size: 12.5 in diagonal

Weight:

- Tablet: 2.0 lb/0.9 kg
- Power keyboard: 1.6 lb / 0.7 kg
- Total: 3.6 lb/1.6 kg

Battery life: up to 6 hours<sup>8</sup>

#### Featured accessory: Wacom Pen

Bolster your creativity with the battery-free, high-performance HP Pro x2 612 Wacom Pen.<sup>18</sup> Precisely write and draw creative graphic content—with 1,024 levels of pressure sensitivity, and palm-rejection technology to prevent accidental input, it's no ordinary pen.

#### Featured accessory: UltraSlim Docking Station

Create a professional desktop experience wherever work takes you. Quickly and easily expand your display, network, and device connectivity to customize an always-ready workspace. The HP UltraSlim Docking Station delivers DisplayPort, VGA, Ethernet, and USB ports to select UltraSlim HP EliteBook Notebook PCs through a simple one-click, slide-in side dock. Secure the connected notebook to the dock with the optional HP Docking Station Cable Lock.<sup>6</sup>

## HP EliteBook Folio 1020 and 1040

Be noticed wherever your business leads, using these exceptionally thin and light notebooks with full enterprise docking.

- Power up your productivity with Windows 8.1<sup>5</sup> next-generation Intel U and Intel Core M-series processors and up to 13 hours of battery life.<sup>8</sup>
- Handle tasks with style and confidence, using an ultra-thin and light HP EliteBook that meets MIL-STD 810G testing for reliability and durability.<sup>3</sup>
- Work more naturally and intuitively on a touchscreen that helps make the most of your Windows 8 experience.
- Keep it secure, keep it simple—with a full portfolio of HP security and manageability solutions.

### HP EliteBook Folio 1020

Screen size: 12.5 in diagonal  
 Weight: 2.68 lb/1.28 kg

 Weight: 3.4 lb/1.55 kg  
 Dimensions: 13.4 x 9.4 x 0.8 in/  
 33.9 x 23.7 x 2.1 cm  
 Battery life: up to 15 hours and 15 minutes<sup>8</sup>

**HP EliteBook 850**

Screen size: 15.6 in diagonal  
 Weight: 4.2 lb/1.83 kg  
 Dimensions: 14.8 x 10 x 0.8 in /  
 37.6 x 25.4 x 2.1 cm

**HP EliteBook 820/840/850**

Stay productive—in or out of the office—using any of these thin and light notebooks. Comprehensive security and manageability tools plus a high-performing processor let you work with confidence.

- Get outstanding performance from Windows 8.1,<sup>5</sup> a next-generation Intel Core i3/i5/i7 U Series processor,<sup>9</sup> dual storage support with a range of storage options, and long battery life.<sup>8</sup>
- Leave dongles behind with a drop-jaw Ethernet port, VGA port, and DisplayPort for key connections to all your devices.
- Collaborate with co-workers and customers from practically anywhere, using the optional Qualcomm® Gobi™ 4G LTE WWAN wireless modem,<sup>16</sup> an optional webcam, top-firing speakers, a dual-array microphone, and HP Noise Reduction Software.
- Never fear bumps and minor spills—these stylish notebooks endure HP's Total Test Process and pass rigorous MIL-STD 810G testing.<sup>3</sup>

Help protect critical data and repel threats to your PC, using a full portfolio of HP security solutions—including HP SureStart<sup>2</sup> and HP Client Security with built in TPM, SmartCard, and optional Fingerprint readers.

## HP EliteBook Revolve 810

Stay as flexible and mobile as your work demands, using a durable notebook that easily converts to a tablet by rotating the display 180 degrees.

- Work your way—either as a notebook or as a tablet—on this ultra-thin, lightweight HP EliteBook with 11.6-inch touchscreen digitizing pen.
- Get outstanding speed and performance from Windows 8.1,<sup>5</sup> a next-generation Intel U-series processor, and up to 12 hours of battery life.<sup>8</sup>
- Help keep security issues at bay with built-in security features including HP Sure Start,<sup>2</sup> HP BIOSphere,<sup>2</sup> and HP Client Security.<sup>1</sup>
- Count on the strength and stability of this rugged yet stylish HP EliteBook designed to withstand bumps and spills.

### HP EliteBook Revolve 810

Screen size: 11.6 in diagonal

Weight: 3.08 lb/1.4 kg

0.9 in/22.2 mm thin

Battery life: up to 12 hours<sup>8</sup>

### Featured accessory: HP Executive Tablet Pen

Write messages and notes in your own handwriting—directly on your HP EliteBook Revolve 810 screen. Then save it—or convert it to typed text for use in other applications. Right-click, draw, type, and navigate better than ever with a capacitive tip that offers pinpoint accuracy to help improve productivity.

### HP EliteDesk 800 Desktop Mini and HP ProDesk 400 Desktop Mini

Dimensions: 6.9 x 1.3 x 7 in/

17.5 x 3.4 x 17.7 cm

Weight: 2.9 lb/ 1.3 kg

Processors: Intel Pentium, Celeron,  
and 4th generation Core i3, i5, i7<sup>9</sup>

Optional accessories:

- HP Integrated Work Center Stand
- HP Desktop Mini Chassis Tower Stand
- HP ProDisplay Companion Stand

## HP EliteDesk 800 Desktop Mini

Save space and complete mission-critical work with a beautifully efficient desktop that fits almost anywhere.

- Optimize workspace with HP's smallest business desktop yet—smaller than some desk phones. Fit this unit almost anywhere, using the integrated VESA mount.
- Power through your day, using the latest performance and management tools with full EliteDesk functionality.
- Keep it secure, keep it simple—with a full portfolio of HP security and manageability solutions.
- Keep this ENERGY STAR<sup>®</sup> qualified PC on and updated with low energy consumption.

## HP ProDesk 400 Desktop Mini

Confidently run your business with this commercial-grade PC, featuring a compact design that fits easily into space-constrained environments.

- Optimize workspace with one of HP's smallest business desktops yet—flexible mounting options let you place this PC almost anywhere.
- Rely on powerful, energy-efficient performance from your choice of the latest Intel processors.
- Keep it secure, keep it simple—with a full portfolio of HP security and manageability solutions.
- Create the ideal PC solution to fit your business needs and budget with a wide array of feature configurations and optional accessories, including external hard drives and legacy port support.<sup>7</sup>

### Featured accessory: HP Desktop Mini Security/Dual VESA Sleeve

Help protect your HP EliteDesk 800 or HP ProDesk 400 Desktop Mini against theft while keeping your connectivity options open. Wrap this PC in the optional HP Desktop Mini Security/Dual VESA Sleeve<sup>7</sup> for easy mounting on a wall behind your display. This sleeve also features custom-designed cutouts that provide convenient access to all of your ports, so you can work how you want with no barriers.

- Show your PC and mobile device content in stunning detail—HP's first curved commercial display provides an elegant, immersive visual experience with enhanced peripheral readability.

## Perform your best with accessories for HP Business PCs

Tailor your technology to fit the needs of your mobile workforce and your business. HP offers a robust ecosystem of smart accessories—from docking stations to keyboards to mice and cases—designed and tested with HP Business PCs to let employees create a comfortable, familiar desktop experience and set up your business for success.

### Keyboards

Transform your tablet into a productivity hub, using your choice of HP add-on keyboards for easy content creation and quick data entry.

Work smarter on the go, get a complete, notebook experience, and help protect your device with the HP Pro Slate Bluetooth Keyboard Case. It opens to your choice of viewing angles for easy touchscreen interaction or comfortable screen viewing while you use the battery-powered, full-featured keyboard.

### Docking stations

Create a productive workspace with flexible connectivity options, no matter where business takes you. HP docking stations help you extend the comfort and convenience of your HP Business Notebook or tablet to a desktop-like experience with features like battery charging, USB and external display ports, and eSATA ports for efficient transfer of large data files.

HP recommends Windows.

**Bluetooth mice**

Bluetooth mice are compact, comfortable, cool—and don't need a USB port. Choose from a variety of sleek designs that fit easily into a carrying case alongside your HP notebook or tablet.

**Cable locks**

Help keep your docking station and notebook from falling into the wrong hands. The HP Docking Station Cable Lock secures your data and hardware against theft in just a few easy steps.

**Adapters**

Connect to a wide range of devices on all types of cables with adapters for USB, HDMI, VGA, Ethernet, and many other ports. Quickly and easily send high-definition audio and video content to an external display. Transfer data, share files, and print documents from your tablet or notebook with minimal effort.

**Pens**

Draw, type, and navigate better than ever, using a capacitive-tip pen that delivers pinpoint accuracy. Write messages and notes in your own handwriting, then easily save or convert them to typed text for use in other applications.

**Covers and cases**

Shield your gear from bumps, dents, and scratches with snug-fitting style. HP offers an assortment of protective covers and cases, including ones designed to give you extra capabilities where you need them.

The HP Pro Slate Rugged Case keeps your tablet's buttons, controls, cameras, and connectors easily accessible. It also features a built-in holder for an optional tablet pen and a handy lanyard for carrying your device between meetings. Or wrap your HP Pro Slate tablet in a slim, custom-fitted cover with integrated magnets that cue wake and sleep modes to help conserve battery life.

**Stands**

Work more comfortably and see your work more clearly by pairing your HP Business Notebook or tablet with an adjustable stand. Easily set up and connect to an external monitor so you can view content on multiple displays—at just the right angle—while conserving valuable space on your desk.

## Go beyond everyday business

Give your agile employees technology that matches their work style. HP Business PCs help put valuable productivity tools at their fingertips, with on-the-go access to critical information from PCs that are tough enough to handle even the bumpiest road trips—without compromising security, upping costs, or giving IT departments more work.

No matter how and where you work, HP has you covered—now and into the future.

Contact your HP representative today to get started.

- <sup>5</sup> Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, and/or software to take full advantage of Windows functionality. See [microsoft.com](http://microsoft.com).
- <sup>6</sup> Quick Release pins, camera lens, flash cover, barcode reader cover, screws, screen, and HP logo are not treated with an antimicrobial.
- <sup>7</sup> Sold separately or as an optional feature.
- <sup>8</sup> Windows 8, MM12 battery life will vary depending on various factors including product model, configuration, loaded applications, features, use, wireless functionality, and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. See [bapco.com](http://bapco.com) for additional details.
- <sup>9</sup> Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing system required. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.
- <sup>10</sup> Use of the HP ElitePad Rugged Tablet with the HP ElitePad Docking Station requires an adapter (also sold separately) for correct compatibility. Please see product QuickSpecs for details.
- <sup>11</sup> Designed for use with HP Paper Folio, sold separately, and planned to be available Fall 2014.
- <sup>12</sup> Wireless access point and Internet service required. Availability of public wireless access points limited.
- <sup>13</sup> Wi-Fi Direct devices required for connection.
- <sup>14</sup> WWAN LTE module is optional, must be configured at the factory, and requires separately purchased service contract. Check with service provider for coverage and availability in your area. Connection speeds will vary due to location, environment, network conditions, and other factors. 4G LTE not available on all products or in all regions.
- <sup>15</sup> A Miracast dongle (sold separately) is required if the projector or monitor is not Miracast-enabled.
- <sup>16</sup> Built-in Qualcomm® Gobi™ modules available in select HP products and require wireless data service contract, network support, and are not available in all areas. Contact service provider to determine the coverage area and availability. 4G LTE not available in all regions. Connection speeds will vary due to location, environment, network conditions, and other factors.
- <sup>17</sup> HP Mobile Connect is only available on pre-configured devices with WWAN. For more information and geographic availability, see [hp.com/go/mobileconnect](http://hp.com/go/mobileconnect).
- <sup>18</sup> The Wacom Pen is available as a configurable option available on models ordered with a digitizer screen. Models without a built-in digitizer are incompatible with the pen.
- <sup>19</sup> High-definition content required.
