#### LIMITED WARRANTY

Security Door Controls (SDC) warrants that all new products sold by us are free from defects in material and workmanship and fit for the purpose intended by SDC when properly installed in accordance with the appropriate factory instructions and template for a period, from the date of shipment as follows:

Lifetime: EMLock Series electromagnetic locks and Exit Check Series Delayed Egress Electromagnetic Locks, excluding Exit Check delayed egress PC board assemblies, purchased since January 1, 2006 are warranted for the life of the product. Excel Series Electromagnetic Locks and 600 Series power supplies purchased since January 1, 2012 are warranted for the life of the product.

**5 Years:** All other SDC products, including Exit Check electronic PC Board Assemblies are warranted for 5 years

The extent of our liability for breach of warranty, when such is shown to our satisfaction, shall be limited to a functionally equivalent replacement, or repair of such product, or part thereof at SDC's sole discretion, when returned, delivery prepaid to SDC. We shall not, except to the extent this limitation may be precluded by law, be liable for inconvenience, labor costs, lost profit, damages to other property, injury or any other consequential or punitive damages resulting directly or indirectly from any product defect or breach of this warranty.

This warranty is limited to the original purchaser, is not transferable and shall not apply to changes of Oil Rubbed Bronze (613/US10B) finish, which is a living finish designed to change appearance through daily use, lamps, LED's, maintenance, wear and tear caused by normal use, altered product, abuse or negligence.

THE FOREGOING WARRANTY IS EXCLUSIVE AND IS IN LIEU OF ALL OTHER WARRANTIES OF FITNESS AND MERCHANTABILITY.

#### **SALES POLICY**

TERMS: A minimum purchase of \$2500.00 annually is required to maintain an open account with Security Door Controls.

RETURNED GOODS: Any defects or errors for which we are responsible will be promptly rectified. Approval for return of merchandise must be requested of us, and when granted the return authorization number must be displayed on all packages returned. Material found suitable for resale without reconditioning will be credited to customer's account less a handling and reprocessing charge of 35% of the net material value. Further charges will be assessed on material requiring rework to return it to saleable condition. Obsolete products will not be accepted for return. Custom products, special finish, options, size or pre-assembly configuration are considered special and are not returnable for credit. Incoming transportation charges are to be prepaid by the Buyer. Credits for material returned will have 2% deducted to cover the cash discount allowance on the original invoice.

ADDITIONAL TERMS: 2% - TEN (10) DAYS. Net thirty (30) days from date of invoice. Interest at 1-1/2% per month will be charged on unpaid balances beyond thirty (30) days. Orders received from 60+ day accounts will not be entered until account is current. It is understood that you may use your normal purchase order or other order forms in placing orders. However any such forms shall be used for convenience only and any terms or provisions which may be contained therein inconsistent with, or in addition to, those contained in our then current Acknowledgment to Customer form or other terms or provisions contained herein shall have no force or effect whatsoever. Custom material or wiring diagrams requires 50% deposit. At SDC's discretion, orders in excess of \$1500 net will be acknowledged by product category and department, and shipped on an "as ready" basis unless customer purchase order specifically states "Do not ship before \_ \_," and "No partial shipments."

**PRICES:** Prices are subject to change without notice. No prices are guaranteed. All shipments will be made at prices prevailing at time of shipment. Errors or omissions in pricing are subject to correction.

**PRICING POLICY:** Shipments must be accepted within sixty (60) days after receipt of the order. Contracts extending beyond this period are subject to prices in effect at the time of shipment.

MINIMUM ORDER: Our minimum net invoice charge is \$250.

**ACCEPTANCE:** We reserve the right to decline an order, in whole or in part, when the price, quantity or assortment of goods is not satisfactory to us.

**CHANGE IN ORDERS:** A charge of \$20.00 will be applied to each change on any order after said original order has been previously acknowledged by SDC, plus a cost incurred by manufacturing at point of change.

**CANCELLATIONS:** A charge of \$40.00 will apply in addition to any cost incurred by us for any cancellation made after our acknowledgment is issued. Custom architectural housings are non-cancelable. Orders for custom architectural housings, custom parts, special and optional plated finishes are non-cancelable.

**FREIGHT:** All goods are invoiced EXW (EXWorks) SECURITY DOOR CONTROLS. When delivered to the transportation company the shipments become the property of the purchaser, who assumes the risk of loss or damage in transit. All ground shipments will be made by United Parcel Service (UPS).

**BACK CHARGES:** We are not responsible for, do not authorize, and will not accept any charges for the cost of any labor or material incurred by anyone other than Security Door Controls for any installation, repair, service or replacement unless incurred with our prior written consent and agreement.

**PRODUCT CHANGES:** SDC reserves the right to modify, change, or discontinue any components as required.

**SHORTAGES/ DISCREPANCIES:** Claims must be made within ten (10) days after receipt of material. (The original invoice number will be required).

**TEMPLATES:** It shall be the customer's responsibility to check all templates requested from SDC for suitability for proper door and frame preparation. Direct mail requests for the door and frame supplier will not release this customer of this responsibility. Duplicates will be mailed to distributors.

**ARBITRATION AND GOVERNING LAW:** In the event of a dispute or controversy, or differences, which may arise between parties, any claim shall be settled by arbitration. The arbitration shall take place in California under the rules of the American Arbitration Association. The validity, interpretation, and performance of this agreement shall be controlled by and construed under the laws of the state of California, United States of America.

**ACCEPTANCE:** We reserve the right to decline an order, in whole or in part, when the price, quantity, or assortment of goods is not satisfactory to us.

NOTE: SDC complete sales policy as stated in our price book prevails at all times.

#### **CUSTOM SYSTEM DESIGN**

Security, Life-Safety and Access Control. They demand the best, in planning, products and operation. So it's only good sense to work with a complete product package, and to begin with an expertly prepared, custom engineered design package from SDC. Detailed to your needs, one entrance or a complex multi-entrance system.

Every professional in the field knows all too well the usual problems. Wiring specs and wiring diagrams don't match up, components are improperly planned out or missing, projects slow down and costs start escalating.

Security Door Controls is prepared to assist you with a complete System Design Folder which eliminates any problems with component compatibility, system operation or wiring installation.

We provide what your particular job requires in electrical drafts,

instructions and data. It offers a great advantage for you, with time saved, a faster, easier, better job in every way.

General instructions. Job name. Supplier. SDC reference number and drawing numbers for easy reference when technical support is needed. System operation: a detailed outline of the complete operation. A full list of components with individual instruction data for each, conduit layout indicating quantity and gauge of wires. Point-to-point wire diagrams of all component connections.

All necessary data is a matter of record. In short, whatever that job requires in equipment, technical understanding or assistance, at the office or in the field, will be detailed in your SDC System Design Folder.

\*SDC fees vary according to requirements.

#### **ENGINEERING POLICY**

Engineering services are available for special system design and documentation.

All requests must be submitted in writing with all detailed requirements before final quotation. Any alterations or omissions must also be submitted in writing and are subject to additional quotation.

SDC assumes no responsibility for information exchanged by

telephone regarding estimates or product suitability for verbally expressed systems. Fax requests will speed up the process and eliminate misunderstandings.

A non-cancelable purchase order for engineering is required before any engineering may proceed.

A signed Engineering Policy form is required for all system drafts.

#### **Grade 1 Cylindrical Locks**

SDC M7200 Series locksets are designed for commercial, industrial and institutional use, where dependable operation and longevity is required along with high resistance to vandalism and abuse. Applications include office buildings, government centers, factories, schools and hospitals and more.

Internal clutch provides vandal resistance by permitting lever rotation without retracting latch when locked.

Independent heavy duty springs provide effective lever re and support.

#### **DOOR CORE DRILL GUIDE**

Distributor Discount Code LZK

LIST

The SDC 7000-DG Laser Guided Wire Raceway Drill Fixture enables wire raceway preparation through particle filled and solid wood doors. The door core wire raceway permits the installation and wiring of electrified locksets, exit devices and electric hinges.

The Laser Guided Wire Raceway Drill Fixture is easy to use without previous experience. The kit allows for drilling from the hinge side without removing the door from the frame.

The 7000-DGK Kit includes: Laser Guided Door Core, Raceway Fixture, 1/4" x 6" Pilot Drill Bit, 3/8" x 50" Door Raceway Drill Bit (Custom designed evacuator drill bit tool sharpened with 1' extra long flutes),

Fiberglass Wire Running Kit (Flexible acrylic end connection, Brass hook end for pulling, Brass eye end for pushing), Door Wedge, Kit Carry Case

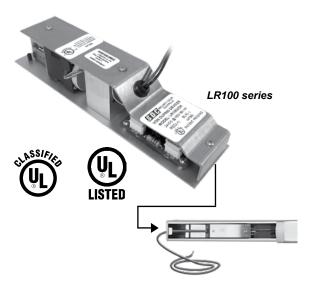

3/8" x 50" Evacuator Drill Bit - Custom Designed for Door Raceways

Extra Long 1 Ft. Flute

#### QUIET DUO™ LR100 450mA Dual Latch Retraction / Dogging Kit

SDC Factory Installed Kits are UL Listed and Field Retrofit Kits are UL Classified for use with 3Hr fire rated and non-fire rated mechanical exit devices. Only 700mA inrush / 200mA continuous @ 24VDC provides simultaneous latch retraction, dogging with pushpad depression ♦ unless specified otherwise.

## 45 Series Electric Strike

The SDC 45 Series electric strike is designed for use with locksets having up to 3/4" latchbolts.

The compact low profile design with an internally mounted solenoid and mounting tabs enable quick and easy installation where jamb space is limited. UL Listing pending

- For 5/8" latch or 3/4" latch with 1/8" gap
- Latch bolt monitor standard
- Keeper closed and deadlocked standard
- Field selectable failsecure failsafe
- Field selectable voltage, 12/24V AC/DC
- 1/4" Horizontal alignment adjustment
- Low profile, 1-3/16" deep

Dual Voltage: 280/140mA @ 12/24V DC 170/85mA @ 12/24V AC

- · Plug-in wire connectors
- Mounting tabs
- · All stainless steel parts with durable die cast body for corrosion resistance
- · Fewer moving parts for maximum life
  - 630 stainless steel standard
- ANSI A156.31 compliant

Latch Status: SPDT, Dry 3Amp @ 30V (standard)

Keeper Closed / deadlocked SPDT, Dry 3Amp @ 30V (standard)

Keeper Open Closed Status: SPDT, Dry 3Amp @ 30V

LBM	Latchbolt Monitor. Signals the door is closed and latched or unlatched and open. Non-handed.	60.00
LBM/LCM	Door Secure Monitor. Signals door is closed latched and the keeper is deadlocked. Also signals the door is unlatched or unlocked. Non-handed.	120.00
DBM-L	Deadbolt Monitor, Left Hand (Available with LCM and LBM. For D, E & F funtions only)	60.00
DBM-R	Deadbolt Monitor, Right Hand (Available with LCM and LBM. For D, E & F funtions only)	60.00

Acces	sories	Add to List
RMB	Buzzer, 12/24V. Indicates strike is energized	40.00
BR64XL	Wire Lead Rectifier. Converts AC to DC	25.00
LT	Tri-Color LED, red or green or amber. Indicates strike energized per field wiring	30.00

# UniFLEX™ UNIVERSAL STRIKE — MULTI APPLICATION PACK

Application Adaptable to all 55-A, 55-B, 55C applications.

- Strike body and 5 faceplates
- · For new and retrofit installation
- · No relocation of the centerline.
- Non-handed

#### Operation

After releasing the latchbolt, the keeper returns to the locked position.

Finish: 630 Dull Stainless Steel

MODEL Application

55-ABC Universal Strike for cylindrical locks, mortise locks without deadbolts and mortise exit devices 460.00 including: SDC, Accurate, Arrow, Baldwin, Best, Corbin Russwin, Dorma, Falcon, Hager,

Marks, Sargent, Schlage, Yale.

Lockset compatibility: For locksets not listed, see UniFLEX™ 55 Series datasheet, page 5, faceplate dimension

#### **30 SERIES RIM MOUNT ELECTRIC STRIKES**

Stainless steel electric strike for rim mount exit devices. Strike is non-handed, fail secure is standard with fail safe optional. Standard finish is stainless steel 630 (U). Check template to ensure compatibility.

#### UNIVERSAL HEADER BRACKET

Used in lieu of angle brackets, the Universal Header Bracket provides a faster mounting solution, saving time and labor costs for several EmLock® models. Reduce potential for mis-sized and misaligned mounting holes, broken taps, removal of broken taps. Combined with interlocking E-Z mount assembly, save up to a half day's labor with the installation of 12 locks.

- Solid 1" bar provides higher security and superior aesthetics. Machined wire chase provides concealed and secure wiring
- Multiple pre-drilled and tapped mounting holes to accommodate the use of several different locks on either 4" or 4.5" aluminum frames

UB11V	Bracket for 1511, 1513, 1571. 1" x 1" x 11"	64.00

ALUMINUM SPACER BRACKET & CONCRETE FILLED FRAME PLATE - PRE-DRILLED & TAPPED

**GK LIST** 

#### Application

- Aluminum frames with blade stop lowers EmLock® below blade stop
- Concrete filled hollow metal frames provides multiple points for concealed wire entry

#### Features

- Pre-drilled and tapped specifically for 1510, 1570, 1580 EmLock
- · Machined wire chase provides multiple points for concealed wire entry from concrete filled frames.

UF11V	Bracket for 1511, 1513, 1571, 1573. 1/2" x 1-1/2" x 11"	90.00
UF12V	Bracket for 1512 and 1572. 1/2" x 1-1/2" x 22"	112.00

## EXIT CHECK® DELAYED EGRESS EMLock®

#### 1511S / T

#### **VOICE & DIGITAL ANNUNCIATION**

The Exit Check® 1511S series incorporates an alternating 85 db tone and voice message with a digital countdown display and sign that provides clear and comprehensive instructions for persons without prior knowledge of door operation. This is especially significant for those who are blind or hearing impaired.

#### FIELD SELECTABLE ACTUATION

- Door Movement
- · Exit Sense Bar
- Exit Device Switch Kit (See page 18.69)
- Latch Monitoring Strike (See page 18.69)

1.650 lbs. Holding Force Standard 830/450 mA @ 12/24VDC (single)

1,200 lbs. Energy Saver Option E 380/225 mA @ 12/24VDC (single) Control more locks with fewer power

Save on electricity consumption and power supply investment.

#### 1511S

#### SINGLE MODEL

14 - Delayed Egress Locks & Controllers

For use with single doors equipped with Exit Sense Bars, surface vertical rod, concealed vertical rod, mortise and rim mount exit devices, mortise locksets and cylindrical locksets.

## Electrical Specifications

Voltage: Auto Voltage Sensing 12/24VDC ± 10% Standard 1,650 lbs holding force:

830/450 mA @ 12/24VDC

Energy Saver E Option 1,200 lbs. Holding 400/275 mA @ 12/24VDC

#### Mechanical Specifications

Single: 11" L x 2 3/4" H x 2 5/8" D

(279 L x 70 H x 67 D mm)

Armature: 7 3/8" L x 2 3/8" H x 9/16" D (187 L x 60 H x 14 D mm)

**Sign:** 13" L x 4 1/2" H

(330 L x 114 H mm)

SOUNDS. DOOR CAN BE OPENED IN 15 SECONDS.

#### 1511T

#### **TANDEM MODEL**

For use with pairs of doors equipped with Exit Sense Bars, surface mounted vertical rod exit devices and concealed vertical rod exit devices with surface mounted triggers and strikes.

Activating either door unlocks both doors.

#### Electrical Specifications

Voltage: Auto Voltage Sensing 12/24VDC ± 10% Standard 1,650 lbs holding force:

1500/850 mA @ 12/24VDC

Energy Saver E Option 1,200 lbs. Holding 650/400 mA @ 12/24VDC

#### Mechanical Specifications

Tandem: Master: 11" L x 2 3/4" H x 2 5/8" D

(279 L x 70 H x 67 D)

Slave: 11" L x 2 3/4" H x 2 5/8" D (279 L x 70 H x 67 D mm)

Armature: 7 3/8" L x 2 3/8" H x 9/16" D

(187 L x 60 H x 14 D mm)

**Sign:** 13" L x 4 1/2" H

(330 L x 114 H mm)

SOUNDS. DOOR CAN BE OPENED IN 15 SECONDS.

#### Control Inputs

Request to Exit: Normally open, dry

Fire Alarm Release: Alarm panel closed dry contact. Opening of contact releases lock.

#### Monitoring Outputs

#### **Alarm Output:**

SPDT Dry, 1 Amp @ 30VDC

Lock Secure / Unlocked Output: SPDT Dry, 1 Amp @ 30VDC

#### 101 EXIT CHECK<sup>®</sup> WALL MOUNT DELAYED EGRESS - NFPA 101 LOCKING ARRANGEMENTS **GKK**

#### **Proprietary Verbal Exit Instructions with Alarm Tone** and 3/4" Digital Countdown Display

Standard features include: 12/24VDC voltage sensing input, delay electronics packaged on a 3-gang wall plate for recessed wall mounting or surface wall mounting with optional junction box. Features include: 15 second exit delay, 1 or 2 second nuisance delay. Keypad for violation reset, momentary bypass and on-off; Voice Annunciation and digital countdown display with door open indicator. Status and remote control inputs are standard.

12VDC / 24VDC @ 200 mA Max.

- Doors WITH latch assemblies are sensor activated and do not require power transfer or trigger switch in exit device. Where preferred a trigger switch may be added to the exit device for manual activation in lieu of door movement activation.
- Doors WITHOUT latches require a non-latching Request-to-Exit Bar PSB560 Sure Exit® or MSB550 Switch Bar (see 17.68). Also compatible with standard EMLocks (see 12.48.)

Add to List

# EH Series Magnetic Door Holder & Releasing Device

SDC EH Series magnetic door holders, are designed to hold doors open and release the door by remote switch or fire life safety command center activation. Primary application includes holding and releasing of fire rated doors that are required to provide a barrier for fire and smoke in an emergency or the convenience of door closure by remote control.

Specifications:

Materials: Zinc alloy

Voltage: Standard dual voltage AC or DC inputs of

12&24V, 24&120V, 24&220V models

**NEW** 

**Holding Force:** Typical holding force of 25-40

pounds; field selectable high holding force.

Mount: Single or double floor, surface, flush,

and recessed mount

Total Projection: Flush mount: 2-11/32" (60mm)

Semi-Flush mount: 3-1/16" (78mm) Surface mount: 4-5/8" (117mm) Floor mount (single door): 5" (127mm) Floor mount (double door): 9-5/8" (244mm)

Fasteners: Hardware package, mounting bracket

#### How To Determine Extension Rod & Adjustable Rod Length

Specify Finish for Surface Back Box EHBB

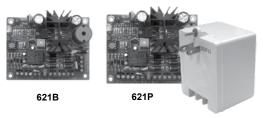

Extensions Rod Application: Refer to Fig. A for Aligned Catch Plate and Door Holder Adjustable Rod Application: Refer to Fig. B for Misaligned Catch Plate and Door Holder

- 1. Hold door open at desired position.
- 2. Measure distance between door and wall.
- Subtract below dimension indicated for door holder style

Flush Mount: Subtract 3" (76mm) from measured distance to determine minimum rod length. Recessed Mount: Subtract 2-3/8" (60mm) from measured distance to determine minimum rod length. Surface Mount: Subtract 4-5/8" (76mm) from measured distance to determine minimum rod length.

# 480 SERIES TOUCH PANEL COLUMN - WIRELESS & HARDWIRE

### **Applications**

- Wireless & Hardwire
- ADA Ingress/R.E.X/Egress Door Opener Activation
- Access Control Request-to-Exit (REX)
- Door Opener Activation
- Automatic Door Activation or Lock Release
- Automatic Door & Exit Device Sequencer Activation

can be used with wireless transmitter and receiver

### **Features**

- Surface wall mount or bollard mount
- Sleek Architectural profile
- No square edges to snag, wide sloping sides deflects impact movement naturally to activate column
- Deflects impact from wheeled carts and conveyances
- Impact & Vandal resistant design, inhibits prying, tampering
- Weather Resistant, no gaps for water or ice penetration
- Choice of SPDT or DPDT, 15 Amps @ 125/250VAC

# **ELEVATOR LOBBY DOOR SYSTEM**

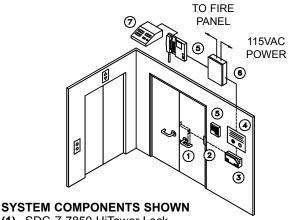

### **OPERATION**

Many high-rise building tenants that occupy a complete floor may have a problem when it comes to securing their elevator lobby doors. These doors lead through office space to the emergency exit stairwell doors. People must have free access to the stairwell at all times. This leaves some companies vulnerable to transient traffic, theft and loss of proprietary information. SDC manufactures a lobby door security system which meets both fire life safety and security needs.

The elevator lobby doors are normally closed and locked by SDC Model Z7850 HiTower Fail-Safe lockset. The intercom system provides two-way communication to the security desk. When a call is placed from the elevator lobby, the security desk personnel can momentarily release the SDCZ7850 lockset by using the SDC Desk Console (Model DTMO-1). If there is no response from the security desk personnel, the person in the elevator lobby can depress the red exit palm push button switch (SDC Model 432KUR). When the red exit switch is activated, the SDC Model Z7850 HiTower lock will immediately release and an alarm will sound in the elevator lobby and the security desk console.

An authorized person can reset the HiTower lockset, turn off the alarm and return the system to the normal secured operation by using the built-in Key Reset on the red exit palm bush button switch. Personnel may always obtain access to the offices by use of an access control system. Egress from the office to the lobby is accomplished by rotating the inside lever.

A SDC Series 600 Power Supply will provide 24VDC power to the HiTower locks, Security Desk Console and alarm. The emergency control relay within the power supply will turn off the system power when activated by a building fire alarm device. The SDC Model Z7850 lockset will release immediately when power is removed.

- (1) SDC-Z 7850 HiTower Lock
- SDC-PTH-4 Power Transfer Hinge (2)
- (3) E4KP Stand Alone Proximity Reader
- SDC-APB 1000 Sign with Release Push Switch and Alarm (4)
- (5) Intercom/CCTV by others
- (6)SDC-631RF Power Supply
- SDC-DT, RCC or TCC Door Control Console and Annunciator

NOTE: All system field wiring is to be installed in accordance with all local building codes and the approval of the local authority having jurisdiction. All wiring is to be done by a licensed Access Control or Fire and Life Safety specialist.

# **Price List 17**

# ELECTRIC & MECHANICAL ACCESS CONTROL HARDWARE

# **INNOVATION**

SDC has been awarded scores of patents for:

- Electrified Cylindrical Locksets
- Electrified Mortise Locksets
- Actuator Controlled Locksets
- Electromagnetic Locks
- Magnetic Shear Locks
- Delayed Egress Locks
- Request-to-Exit Bars

# **LEADERSHIP**

SDC has earned twelve SIA New Product Achievement and Security Industry Finest Awards since 1997. In addition, SDC has received numerous SIA New Product Showcase certificates of recognition for Commitment to Innovation and Excellence in New Product Development.

### **PROJECTS**

- NASA Kennedy Space Center, FL
- · King Khalid International Airport, Saudi Arabia
- J. Paul Getty Museum, Los Angeles
- Chek Lap KOK Airport, Hong Kong
- Bank of America, U.S.A.
- Kuala Lumpur International Airport, Malaysia
- · Smithsonian Institute, Washington D.C.
- · California State Capital, East End Project
- Duke Energy Nuclear Plants, N. & S. Carolina
- Dallas/Forth Worth International Airport, Texas
- · Museum of Modern Art, New York
- Exxon. U.S.A.
- · Chase Manhattan Bank, U.S.A
- JFK International Airport; NY

# **QUALITY**

SDC practices quality management based on continued improvement of daily operations, product quality and customer satisfaction.

Please check on-line version of price list regularly. We strive to expand our product line and offering you more options and updates on regular basis.

# **COMPREHENSIVE CD-ROM CATALOG**

The SDC Comprehensive CD-ROM catalog includes all product datasheets, installation instructions and list prices. Go to the SDC website or send us an e-mail to request your Comprehensive CD-ROM Catalog today.

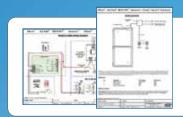

### shipQUICK

Over 100 SDC products are available for shipment the same day or next business day from the SDC warehouse nearest you. Visit us at www.SDCsecurity.com and download your copy of the shipQUICK inventory so you know first hand which products SDC can expedite for you.

### **SDC SYSTEM LIBRARY**

SDC has provided a library of the more commonly used systems. These and more basic systems are available for all visitors. Product specific system designs are compatible with the Project Folders. A system riser diagram and point-to-point drawing, including written method of operation, and all documentation related to all components may be automatically downloaded to your Project Folder.
