

FEATURED PRODUCTS

CareLink™ Mobile Nurse Station

- Next generation of mobile technology addresses the needs of modern healthcare administrators
- Saves time with 7" glass touchscreen
- Easier to move with N-Stride™ steer assist
- Intelligent platform with remote fleet management

M38 Computing Carts

- Ergonomic design
- Meets needs of demanding clinical environment
- Best-in-class service plan

XP Medication Carts

- Compact base with flexible drawer system
- Advanced security
- Hybrid of traditional computer and medication cart

RX Medication Carts

- Large storage capacity
- Advanced keyless entry system
- Bedside medication delivery

Mobile Technology Cabinet

- Cabinet look and feel with flexibility of a mobile computer cart
- Clinician friendly features optimize patient interaction

M40 Computing Carts

- Lightweight construction
- Compact and ergonomic design
- Large work surface

Transfer and Exchange Carts

- Supports EHR administration initiatives
- Optimized nurse workflow
- Secure

Wall Cabinets

- Maximum aesthetic flexibility
- Advanced keyless entry system
- Generous work surface

PARTNERING WITH INSIGHT: RUBBERMAID HEALTHCARE

INCREASING THE ABILITY TO DELIVER QUALITY PATIENT CARE

Oftentimes there are not enough hours in the day for healthcare professionals to help and heal to the best of their ability, due to mountains of paperwork, not enough resources and too many patients. There are constant challenges to fulfill their daily responsibilities – and deliver quality patient care. Mobile and wall-mounted solutions can help address the requirements of varying units, allowing medical personnel to bring everything that necessitates a quality patient experience at the point of care – to the point of care.

Designed specifically for the healthcare industry, Rubbermaid Healthcare's mobile and wall-mounted solutions address the unmet needs of the clinical market with an ergonomic design, user-friendly features and state-of-the-art technology. These carts can help to reduce fatigue, frustration and stress with a nurse's or clinician's every step. The design and ease of mobility makes getting around facilities a breeze. Rubbermaid's ergonomic features and workflow solutions help minimize the rigorous day-to-day tasks associated with providing personal care.

IMPROVING PATIENT CARE IS A TOP PRIORITY

Rubbermaid Healthcare consultants strategize with nursing and IT leadership to determine which mobile solutions will work best to complement each care setting across the enterprise. Product development focuses on providing caregiver workflow advantages and improving the integration and acceptance of technology into the patient care process. In addition, Rubbermaid's products are lightweight, customizable, compatible with existing technology and backed by a next-business-day service guarantee.

End-User Research & Design

Driven by research and end user insights, Rubbermaid Healthcare carts are designed specifically to meet the unmet needs of the clinical market. They understand how important consumer feedback is in creating new products, and spend thousands of hours with nursing and IT in the healthcare environment to develop new concepts and gain knowledge of the pressure points surrounding existing products.

Manufacturing

Rubbermaid manufactures products to be durable and long-lasting, with a great degree of care to guarantee the highest quality. All of their carts are built to order, allowing a level of customization and flexibility that is unparalleled in the healthcare industry. Incorporating Six Sigma, the manufacturing process is able to permit fast turnarounds, ensuring they are able to supply hospitals with the products they need – when they need it.

Testing

All products go through a final inspection before they ship, and are tested beyond failure at Rubbermaid's state-of-the-art testing facility. They understand nurses depend upon the products to perform, in order to do their job. Advanced equipment is used to guarantee each product will far surpass the required usage in its demanding clinical environment.

WHY PARTNER WITH INSIGHT?

Insight is your trusted provider of IT, solutions and services for healthcare. We take a holistic approach to drive proven, innovative health IT strategies to facilitate quality outcomes, reduced medical errors, standardized care, increased staff productivity and caregiver job satisfaction.

Insight Healthcare Solutions successfully integrates technology into existing clinical workflows and environments and provides you with a single-source supplier to meet your unique and diverse IT goals. We stand by our solutions through every phase of your technology lifecycle and have a demonstrated track record of helping healthcare entities gain technological advantages while supporting patient care and reducing overall cost of ownership.

WHY RUBBERMAID FOR HEALTHCARE

At Rubbermaid Healthcare, improving patient care is a number one priority, which is why there is a focus on providing caregiver workflow advantages and improving the integration and acceptance of technology into the patient care process. As a premier provider of mobile nurse stations, medication carts, computer carts, wall arm workstations and wall cabinet workstations solutions, Rubbermaid helps healthcare facilities enhance patient care, safety and staff productivity. Carts are designed to be ergonomic, lightweight and customizable.

WHY INSIGHT FOR HEALTHCARE

Efficient workflow, strict compliance and touch security measures – these are not only your goals in providing patient care but also the commitment of every Insight healthcare solution. As one of the world's largest IT solutions providers, Insight offers custom solutions designed to meet your unique spending needs. We acknowledge and address the complexities of integrating technology within your existing healthcare organization and can keep your technology infrastructure poised to embrace continually evolving measures and requirements.
