PARTNERSHIP WITH UNIVERSITY OF PHOENIX

Insight and University of Phoenix have teamed up to encourage teammates to enhance their educational, professional and personal lives through higher education. University of Phoenix offers a learning environment that's designed to support working adults so you can pursue higher education on a schedule that fits your lifestyle. This opportunity provides you the real-world skills needed to advance your personal and professional career goals.

What this means for you

University of Phoenix delivers rigorous coursework in a flexible format to allow students to balance work and home life while earning their degrees. Insight teammates will receive the following benefits:

- 5% savings on tuition—with higher education, every little bit helps!
- Eligibility for the Direct Bill payment option*, which allows Insight to pay for your tuition in accordance with its internal tuition assistance policies and may qualify you for extra savings on the cost of tuition. Be sure to let your University of Phoenix Enrollment Advisor know you are eligible for Direct Bill with Insight Direct, USA in order to receive additional savings.
- The ability to defer payment on your tuition with Direct Bill. You will not be required to pay for your course until after the course has been completed. University of Phoenix will bill Insight for the amount eligible for tuition reimbursement, and you will pay the remaining balance not covered by Insight.
- If you are currently a student with the University of Phoenix, you can have these savings applied to your current tuition fees. Unfortunately, we cannot offer discounts for courses/payments already completed.
- Access to the Credit Recommendation Guide to help students transition completed training and development courses into elective credit through the Prior Learning Assessment (PLA) process.
- Access to innovative education technologies including electronic textbooks and course materials, a comprehensive online library, and intuitive writing and math tools.
- A personalized Graduation Team comprised of dedicated advisors to support you from enrollment to graduation.
- We're working with University of Phoenix to offer undergraduate credits for some of the development programs we offer at Insight. Information will be provided as we work out those details.
