TREND MICRO™
Online Guardian
 For Families

Protect your kids from Internet dangers

Are your kids out smarting you when it comes to social networking?

Just because your child has accepted you as a "Friend" doesn't mean you're getting total access to their online social life. Facebook and MySpace have account privacy settings that kids can use to limit your view of their activity...that is unless you have: **Trend Micro™ Online Guardian for Families.**

With Online Guardian, you can monitor your children's behavior on Facebook and MySpace - even if they have enabled the privacy settings.

Online Guardian helps you protect your kids against Internet dangers, including cyberbullying and online predators, by letting you monitor their Internet activity and take action to keep them safe.

Trend Micro™ Online Guardian for Families

is parental control software that helps you monitor and protect your kids on the Internet with these key features and benefits:

- 1 **Video and Photo Monitoring** - see what your kids are viewing and posting on websites like YouTube and Flickr
- 2 **Social Networking Monitoring** - monitor your kids' activity on Facebook and MySpace, regardless of privacy settings
- 3 **Website Monitoring** - block inappropriate content and websites
- 4 **Keyword Search Monitoring** - easily monitor what your kids are searching for on the Internet

Instant Messaging Monitoring - view your kids' web chats and conversations on Yahoo! and MSN
